Preface.

This bibliography had its beginning in my doctor's dissertation (The French Inchoative Suffix *-iss* and the French *-ir* Conjucation in Middle English. Carl Winter, Heidelberg, 1912). As work on the latter progressed, the bibliographical notices assumed such proportion that a systematic arrangement of them became necessary. The arrangement decided upon enhanced the convenience of using these notices for the purpose in view, — namely, for finding out the date, dialect, and sources of the original of a given monument and the dates and dialects of the MSS. in which the monument had been preserved — so far as this information was to be had in prefaces to editions and in dissertations and other "vorarbeiten".

English Dept.
OCT 3 1937

As the names of the MSS. in which a monument is preserved are given here under the title of the monument, the entire information referred to above can be obtained by reference to the bibliography of MSS., which begins on page 52.

The compilation of this information ceased in the early summer of 1907. It is a source of regret to me that the opportunity to bring the work up to date has not presented itself.

GERMAN BOOK

There remains but the pleasant duty of expressing my appreciation of the unfailing willingness and courtesy shown by the library officials of the Johns Hopkins University and the Peabody Institute, in Baltimore, and the University of Heidelberg.
